MATLAB and Simulink Training Courses Overview

Advance Your Skills with MATLAB and Simulink Training Courses

Virtual, in-person, and self-paced courses accommodate a variety of learning styles and organizational needs.

1. Humusoft MATLAB and Simulink Training Courses:

Price: for current prices please contact Mr. Pavel Beneš <benes@humusoft.cz>

Training Courses are available as public or private (Online / Onsite / Hybrid). Private Training Courses are available also in English:

MATLAB basics: working with the environment

MATLAB basics: data manipulation and programming

Data processing and visualization in MATLAB

Creating graphical applications in the MATLAB environment

Programming techniques in the MATLAB environment

Object-oriented programming in MATLAB

Simulink: Basics of System and Algorithm Modeling

Simulink: Modeling advanced systems

Simulink: Tools for model and data management in larger projects

MATLAB - integration with other programming languages

Modeling logical and decision-making systems in Stateflow

Modeling physical systems in Simscape

Parallel Computing with MATLAB

Signal processing with MATLAB and Simulink

Simulink Coder + Embedded Coder

https://www.humusoft.cz/en/training/

2. MathWorks Self-Paced Online Courses:

Price: for Free

Learn MATLAB and Simulink at your own pace:

https://matlabacademy.mathworks.com/#getting-started

3. MathWorks Online Training Suite (OTS):

Price: purchase orders are managed directly by Humusoft. In case of your interest, please contact Mr. Pavel Beneš <benes@humusoft.cz>

An annual license that provides access to defined courses:
https://matlabacademy.mathworks.com/online-training-subscription

4. MathWorks Online / Onsite Training Courses:

Price: purchase orders are managed directly by the MathWorks (payment is standardly by credit card, Humusoft can arrange payment by wire transfer)

https://www.mathworks.com/learn/training.html
